Reproduce steps

1. Send POST request to https://petstore.swagger.io/v2/pet/
2. Add request body Raw and select JSON with content:

```
{
    "id": "invalid_id",
    "category": {
        "id": 10,
        "name": "Dog"
    },
    "name": "Max",
    "photoUrls": ["https://cdn.shopify.com/s/files/1/0284/2391/3547/articles/Amer
    ican-Pitbull-Puppies-6.JPG_c4357295-9ee4-45f8-9718-
    e36c98022c46.jpg?v=1603063314"],
    "status": "available"
}
```

3. Send the request

Actual result

Internal Server Error 500

Expected result

- Status code 400
- Validation message that user entered invalid parameter 'id'
